Romi Sinizkey / Computer Science Student

054-4276-740 / Sinizromi@gmail.com / LinkedIn / GitHub / Portfolio

Profile

- ***Full-Stack Developer with production experience | 3rd-year Computer Science student | GPA: 88***.
- *Selected for an elite **international mission** in Germany during service in the Israeli Navy.*

Experience

Full-Stack Developer | Bridgify Startup | Academic Internship | 2025 – 2026

- ***Bridgify** is a travel-tech startup providing infrastructure for integrating and delivering travel experiences.*
- *Developed and shipped **production features end-to-end** and improved existing code through **refactoring**.*
- *Gained hands-on experience with **React, TypeScript, Django, REST APIs, Git, and Agile development**.*

Computer Science Tutor | JMC | 2024 – 2025

- *Tutored students in **OOP, Data Structures, C++**, and **Python** covering assignments, debugging, and exam prep.*

Software Development Bootcamp | 2026

- *Hands-on development in **Backend**, Distributed Systems, Linux, Docker, **Networking & Kernel Programming**.*

Academic Projects

Distributed Firewall System | C, TypeScript, Python | 2026 - Present | Firewall Orchestrator | Kernel Firewall

- *Built an **end-to-end firewall system** with **Node.js/TypeScript, PostgreSQL, and RabbitMQ**.*
- *Developed a **Python consumer** for asynchronous firewall rule processing and synchronization.*
- *Implemented a **Linux kernel firewall in C** using **Netfilter** and **Generic Netlink**.*

GTA2-Style Game | C++ | 2025 | Link - Git

- *Engineered **police AI** with **shortest-path algorithm** in C++ using **OOP** inheritance and polymorphism.*
- *Designed **JSON-driven map system** enabling dynamic level loading and game world configuration.*

Python QA Automation Framework | Python | 2026 - Present | Link - Git

- *Built **end-to-end QA framework** with **Python, Playwright**, pytest, and **GitHub Actions** CI pipeline.*
- *Implemented **Page Object Model** architecture with pytest-html for automated test execution.*

Education

B.Sc. Computer Science | JMC | 2023 – 2027

- *Relevant Coursework: **OOP, Data Structures, Algorithms, OS, SQL** | **Industry Internship**: Full-Stack Developer.*

Skills and Tools

- ***Languages + Frameworks: Python**, TypeScript, **JavaScript**, **C++**, React, FastAPI, Node.js.*
- ***Tools: SQL**, PostgreSQL, Docker, Git, Linux, Playwright, Pytest.*
- ***Spoken Languages**: English (Fluent) | Hebrew (Native) | Russian (Native).*

Military Service

Combat Soldier | Israeli Navy | Aug 2019 – Apr 2022

- *Selected for an **international** naval **mission in Germany**, requiring rapid adaptation to **new technologies**.*
- *Promoted to **Deputy Combat Leader**, **highest position** attainable for an Israeli Navy conscript soldier.*
